

ELANGOVAN P

Java Developer | Spring Boot Developer | DSA Enthusiast

+91 9344496604 | elangovanp222@gmail.com | [linkedin.com/in/elangovan-p-2a4567251](https://www.linkedin.com/in/elangovan-p-2a4567251) | github.com/ElangovanP-dev | Namakkal, Tamil Nadu

PROFESSIONAL SUMMARY

Motivated Java Developer and Computer Science undergraduate with strong expertise in Core Java, Object-Oriented Programming, Collections Framework, JDBC, SQL, and Spring Boot. Proven ability to architect and deliver production-ready systems — including a full-featured Inventory Management System — with clean, maintainable code, CRUD operations, and exception handling. Hands-on experience building RESTful APIs with Spring Boot, integrating MySQL databases, and applying Data Structures & Algorithms to solve 100+ LeetCode problems in Java. Holds industry certifications in Java (NPTEL Elite 86%), Snowflake, and Salesforce. Actively pursuing backend engineering excellence with a strong commitment to scalable software design and continuous learning.

TECHNICAL SKILLS

Core Languages

Java (Primary) • SQL • Python (Basic)

Java & Backend Development

Core Java • OOP • Collections Framework • Exception Handling • Multithreading • JDBC • REST APIs • Spring Boot • Maven

Database

MySQL • SQL Query Optimization • Database Design • JDBC Integration

Tools & IDE

IntelliJ IDEA • VS Code • Postman • Git • GitHub • Snowflake

CS Fundamentals

Data Structures & Algorithms • OOP Design Patterns • SDLC • Agile Basics

Soft Skills

Problem Solving • Analytical Thinking • Team Collaboration • Communication

EDUCATION

B.E. Computer Science Engineering

Mahendra Engineering College, Namakkal

2023 – 2027 | CGPA: 7.5 / 10

CERTIFICATIONS

- NPTEL Programming in Java — Elite (86th Percentile)
- NPTEL Introduction to IoT — Elite (79%)
- NPTEL Cloud Computing
- SnowPro Associate: Platform — Snowflake
- Salesforce Agentblazer Champion Developer
- Python Foundation Certification — Infosys Springboard
- ServiceNow Virtual Internship Certification
- HackerRank Java 5-Star Badge

ACHIEVEMENTS

- Solved 100+ LeetCode problems in Java — Arrays, Linked Lists, Trees, DP, and Graphs.
- Ranked in top 14% nationally in NPTEL Java with Elite badge (86%).
- Participated in multiple hackathons; built AI Resume Analyzer under competition constraints.
- Completed 5+ industry certifications spanning cloud, enterprise SaaS, and software development.

INTERNSHIP EXPERIENCE

Junior Java Developer Intern — YuvaIntern · Remote

2026

- Designed and delivered a production-grade Inventory Management System in Core Java, applying OOP, encapsulation, and modular architecture to ensure long-term maintainability.
- Implemented full CRUD operations with multi-layer input validation, custom exception handling, and structured error logging — reducing runtime failures by enforcing strict data integrity.
- Applied defensive programming and modular design patterns; achieved clean separation of concerns across service, model, and data access layers.
- Strengthened proficiency in Java debugging, unit testing, and iterative software delivery within an agile-inspired workflow.

Campus Internship Trainee — UpSkill Campus & Uniconverge Technologies · Virtual

2025

- Successfully completed an industry-oriented internship program focused on emerging technologies and professional development.
- Gained practical exposure to software development workflows, problem-solving techniques, and project-based learning.
- Enhanced technical skills through hands-on assignments, collaborative activities, and real-world case studies.
- Developed a deeper understanding of industry expectations, teamwork, and communication in a professional environment.

PROJECTS

Inventory Management System

Java · JDBC · MySQL

- Developed a console-based inventory application with complete CRUD operations, input validation, and exception handling.
- Applied OOP design principles and integrated JDBC for robust database connectivity and data persistence.

AI Resume Analyzer

Java · Spring Boot · REST API

- Built an AI-powered application that analyzes resumes against job descriptions and generates skill-gap insights and match scores.
- Improved resume screening efficiency through automated evaluation; developed under hackathon time constraints.

CODING PROFILES

LeetCode: leetcode.com/u/ElangovanP — 100+ Problems Solved | Focus: Arrays, Linked Lists, Trees, DP, Graphs
